

## THREE PRESCOTT MEN ON STATE COUNCIL

STATE DEFENSE COUNCIL MEETS IN PHOENIX ON WEDNESDAY TO PLAN PART IN WAGING WAR ON NATION'S ENEMIES.

(From Sunday's Daily)

Three Prescott men are included in the list of 34 Arizonans appointed by Governor Campbell as the State council of defense. They are R. N. Fredericks, Frank M. Murphy and Frank O. Smith.

The council meets in the office of Governor Campbell at the State House Phoenix on Wednesday at 11 a. m. to perfect its organization. The conservation of men and all sorts of resources and the co-ordination of work for the nation in its war with Germany, will be the chief objects of the council. Its recommendations may cause steps to be taken to fix maximum food prices. It may take action to prevent hoarding of supplies. It will almost certainly, look over the returns from the county assessors and work out a plan for filling the National Guard of Arizona up to war strength.

Those named by the chief executive are as follows: Dwight B. Heard, J. L. Donnelly, John S. Orme, Lon L. Harmon and H. J. McClung, all of Phoenix; Senator J. Lorenzo Hubbell of Ganado; R. N. Fredericks, Judge Frank O. Smith, Frank M. Murphy, Prescott; Gustav Becker, Springerville; John T. Greenway, Warren; T. E. Pollock, T. A. Riordan, David Babbitt, Flagstaff; W. K. Ridenour, Kingman; E. C. Titcomb, Nogales; Captain D. W. Mix, Nogales; S. W. Stewart, Douglas; H. A. Morgan, Wilcox; E. R. Sanguinetti, Yuma; R. B. von Klein Smid, Dr. U. T. McDougal, Albert Steinfeld, General L. H. Manning, Tucson; J. B. Treat, Florence; L. S. Cates, Ray; J. B. Cook, Tempe; J. W. Lesueur, Mesa; A. T. Wilson, Clifton; Andrew Kimball, Thatcher; Hon. D. H. Claridge, Solomonville; Rev. E. M. Johnson, Globe; Judge Walter Shute, Globe, and C. E. Mills, Miami.

These men were chosen, according to Governor Campbell, because of their knowledge of conditions in all sections of the State. Their duty, it has been announced, will be to supervise and regulate the sale, distribution and consumption of food-stuffs, the proper safeguarding of health and sanitation and the protection of Arizona's industries.

This committee will also have within its scope the power to appoint various committees to carry on research work in connection with the natural resources of the State. An attempt will be made to conserve these resources to as great an extent as possible.

### FRENCH EXPERT HERE TO BUILD DIRIGIBLES

(From Sunday's Daily)

Henri Julliot, the distinguished French engineer and builder of dirigibles has arrived in this country and will give the United States government the benefit of his long experience in aeronautics. He comes to take complete charge of the construction of the huge Blimp type of dirigibles which are being built for the government by the Goodrich Rubber Company at Akron. He has accepted the commission as chief of the Goodrich aeronautical division.

Unusual importance is attached to M. Julliot's presence in the United States at this time, for he brings with him the greatest fund of dirigible balloon knowledge that is available to any government. Since the beginning of the war, Mr. Julliot has acquired the title of the "Super-Zeppelin" of France for his experience in dirigible building predates that of the late Zeppelin of Germany by many years.

His aeronautical experience dates back almost forty years, when he was first associated with Messrs. Lebaudy Freres in their immense sugar refineries, as director of technique. In this capacity, in the early 70's he built the famous Lebaudy dirigible for his employers who were then interested in ballooning as a sport. The success of the first Lebaudy type airship encouraged Julliot so much that he devoted a large portion of his time to the further development of dirigibles.

In 1899 he began building this type of aircraft for military purposes, but was not until 1902 that he felt he had made the non-rigid dirigible practical for military use.

During the present European war,

Julliot has acted in an advisory capacity to the French government and has had every opportunity of observing all types of aircraft and their success.

Julliot in 1915 built his first dirigible for the British government and flew from Paris to the aviation field at Aldershot. This was one of the crowning events of his life for it settled for all time that the non-rigid dirigible was destined to become one of the most important factors in the 20th century warfare. Since that time in the present war, this point has been more conclusively proven by the Allied governments in their most successful use of this type of balloon for offensive as well as defensive purposes.

Among the most notable airships that Julliot has built are the Lebaudy, La Patrie, La Republique, and many others in addition to a number for England and Russia. He had received many honors, but it is sufficient to mention that he is a Chevalier in the Legion of Honor.

The shape of the envelope of the Blimp dirigible somewhat resembles that of a cigar. Suspended from the envelope will be a rigidly built car resembling in design an aeroplane, but spacious enough to carry a pilot, observer and a 100-horse power gasoline motor of the latest improved type. The dirigibles will be able to reach an altitude of 7,500 feet with safety. They can maintain a speed of 45 miles an hour for 16 hours.

### COL. ROOSEVELT TO GET MEN FROM HERE

(From Sunday's Daily)

The following from the Arizona Republican is published here at the request of R. P. Holliday, who has been named information man for the Roosevelt division in this part of the State. Application blanks for members have been sent for:

"Believing that Colonel Roosevelt is going to secure permission from the United States government to organize a division, and that the call will come within a short time, Major Frederick Russell Burnham, and W. H. Lightfoot, who have been in the State for the past week laying the foundation for a desert cavalry regiment, are going ahead with their plans and enrolling men for the organization.

"Major Burnham, who was chief of scouts under Lord Roberts in the Boer war, has been in Bisbee conferring with John C. Greenway, and in Tucson where he met Epes Randolph. He is enlisting the services of several of the biggest men in the State in the enterprise and expects to enroll a large number of Arizonians who are used to riding and roughing it.

"Mr. Lightfoot, who has practically finished raising a company in Blythe, Cal., made up of cowboys from the Colorado river country, left for that place last night to finish his arrangements.

"While in Phoenix, he covered considerable ground and personally selected about 50 men who will join his company when the call comes.

"Mr. Lightfoot has a wide acquaintance among the cattle men of the State and many of them are anxious to join his command. He will probably return here within the next two weeks or so. In the meantime he has left enrollment blanks with Robert P. Holliday of The Arizona Republican, who will furnish information to all those who desire to enroll.

"Enrollment with the Roosevelt division is not an enlistment. It does not mean that a man will have to go when the call comes, but merely signifies his desire and intention to go if he is called.

"Only men who are good horsemen, and accustomed to a life in the open are desired. In case the necessary permission is given Colonel Roosevelt's plans have all been made for the mobilization of the various units. Six days' notice will be given each man. If he does not report at the place designated within that period, his name will be dropped from the rolls. It is thought that the Arizona contingent will mobilize at Blythe."

### GETTING NERVOUS

AMSTERDAM, April 14. — The military critic of the Vossische Zeitung of Berlin writes that he has received many letters which prove that "the nerves of many readers are beginning to give way." He dwells on the "unfounded" excitement which he states is spreading among those at home and warns the public not to judge the situation from single events but to take events as a whole into consideration.

### SENDING COMMISSION

WASHINGTON, April 14.—Official confirmation that the United States is considering sending a commission to Russia to see in what way this country can be of aid to the new government was given today at the State department. It was stated that while no final decision had been reached, the commission would cover all phases of Russo-American co-operation in the war.

## WOOD CANNED FROM THE FAIR COMMISSION

(Continued From Page One)

responsibility which will devolve upon me, and assuming that nothing would have been done by the present commission, except purely routine business, I have taken no action in regard to changes in the personnel of the same.

It is my desire that no contracts regarding concessions be closed by the present State fair commission, without reference to and approval by me.

(Signed) Thomas E. Campbell, Governor of Arizona.  
Thos. D. Shaughnessy, Secretary, State Fair Commission, Phoenix, Arizona.

In reply I received the following from Mr. Shaughnessy, under date of April 6th:

Hon. Thomas E. Campbell, Governor of Arizona, State House, Phoenix, Arizona.

Sir: This is to acknowledge receipt of your letter of the 4th inst. with reference to sale of concessions and to advise that same has been placed before the fair commission.

Respectfully yours,  
T. D. Shaughnessy, Secretary.

### Learns of Contract

When it became apparent that Messrs. Wood and Layton were disposed to ignore my warning as to entering into such contracts, I began to use such avenues of information as I could command, and on the afternoon of Saturday, I learned that a contract had been signed by the two commissioners with Boyce. Secretary Shaughnessy, at my request, furnished me with the copy of the contract in the possession of his office. The contract is dated April 7, just three days after my instructions were sent. This was my first definite information that such an arrangement had been entered into.

Considering it incompatible with my self-respect, and beneath the contempt of the office to which the citizenry of Arizona has elected me, I shall not allude to the childish demeanor of the officials in charge of the fair grounds and their administration of the affairs of the State fair but I wish to go emphatically upon record here and now with the statement that such use of State property at a time when the State of Arizona and the United States are in the throes of a world conflict of unprecedented proportions, the most serious consideration of the expenditure of every dollar possessed by our people is a sacred responsibility.

Believes Majority Condemns. Whatever the legal right of a person or company to operate such betting machines may be, I am convinced that the morals of our people is such that a majority will condemn severely the use of State property for betting on horse racing.

The fair grounds are accessible by rail, electric traction, and excellent highways, and because of their splendid strategic advantages as a mobilization center, together with the accommodations furnished by buildings for men and mounts, rendering them most advantageous, I have considered offer of the use of the same to the war department, if desired.

This early announcement that I oppose the action of the commission, I feel is due to the people of Arizona, and anyone outside who might otherwise become an innocent investor or concession-holder.

I believe that no State should offer the use of its property for such a purpose while entreating its citizens to give their lives for their country's defense. It has too much the appearance of providing the favoritism of questionable frolic for some as against death for others.

As a business proposition—even admitting for the same of argument that gambling is a good thing for a State to encourage among its people—ten per cent of the gate receipts would be an insignificant return for the use allowed, considering wear and tear on State property.

My policy in keeping holders of appointive offices under the past administration in power should have met at least with the meager respect of subdivision of their personal and party interests.

This act of the fair commission, attempting to tie the State of Arizona for a period far beyond the terms of their offices to an unconscionable contract, strains my patience to the breaking point, and I am taking early means of effecting a change in the personnel of their offices.

THOMAS E. CAMPBELL, Governor of Arizona.

## CAPTAIN NELSON HERE TO SWELL N. G. A. RANKS

MESA PHYSICIAN DROPS LUCRATIVE PRACTICE WHEN CALLED BY GOV. CAMPBELL: IS ONE OF SQUAD OF RECRUITERS.

(From Tuesday's Daily)

As one of the flying squadron of national guard recruiting officers, Captain J. B. Nelson of Mesa, of the medical staff of the Arizona troops, arrived in Prescott late Sunday night, and yesterday opened up a recruiting office in the Head Hotel lobby. He spent yesterday afternoon in conference with the military committee, which has in charge the work of the Prescott Home Guards.

That the national guard is now a Federal organization and that radical changes have been made since the declaration of war against Germany, is the statement of Captain Nelson. The organization is more closely knit to the Federal military than ever before. In taking the oath, the recruit now swears allegiance to the "National Guard of the United States and the State of Arizona." His term of enlistment at this time and under existing conditions is for the period of the war. His status under the State law as regards reserve men on the expiration of their Federal terms or their N. G. A. enlistments, is not yet explained.

About 1,100 men are needed to fill the 12 companies of the State troops. Now more than before, the term "First Arizona Infantry" is applicable to the guard. Before anyone can enlist he must pass two physical examinations. All recruits must be unmarried men between the ages of 18 and 35.

Captain Nelson will be in Prescott, Jerome, Clarkdale and the immediate vicinity for several days. Here, his headquarters will be at the Head hotel, where free office room has been given by Manager William Paar. Paar also had the flags put up and the signs painted for the recruiting office.

Nelson is a prominent physician of Mesa. He was called upon by Governor Campbell last Saturday to go into active work assisting the recruiting department to bring the Arizona regiment up to war strength, which is 180 men to the company. The regiment is now but half filled. Nelson left a lucrative practice to engage in this work. He was not in active service on the border, as his company being commanded by Captain Joseph Noble, is now guarding the Roosevelt dam. Nelson was left unassigned when Dr. Yount of this city was appointed surgeon-major of the regiment.

The captain anticipates some difficulty in gaining recruits hereabout, but hopes to make a good showing. He finds that the young men of eligible age and physique of this county do not care about joining the ranks to help fill out skeleton companies, but really prefer forming a company or two of their own. Under the new Federal regulations it will be impossible to form new companies and elect officers as under the old State rules. It is possible, however, in case it is found impossible to secure these willing volunteers for other companies, to form a company or two from this county and have officers of experience and training appointed from the Federal service to lead them.

## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

Being hurried into service, Dr. Nelson had little time to inform himself fully regarding the status of the guard and the many little details that most all citizens want to know before recruiting. He will be glad, however, to answer all questions he can, and to find out as soon as possible, the things men want to know.

### A. J. HEAD BUYS UP HOLDER GOAT RANCH

(From Sunday's Daily)

A deal was closed yesterday by William Paar, agent for the A. J. Head interests, for the herds of goats belonging to S. W. Holder. Beside 5,478 goats, Holder sold his land holdings, which amount to 2,000 acres and some homestead rights between Kirkland and Copper Basin.

The Holder goat outfit is considered one of the most desirable in the State. Owing to the illness of Mr. Holder, he is retiring from business which has been handled for him during the winter by Raymond and Ernest Muse. The Muse brothers will act as agents for the Head interests in this goat proposition.
